SUMMARY

Full Stack Web Developer | MERN & Django | API Integration | Scalable Applications

Computer Science undergraduate with hands-on experience in full-stack development using Django, MERN stack, and relational/non-relational databases. Skilled in building and deploying scalable, user-friendly applications from backend logic to responsive frontend interfaces. Passionate about solving real-world problems through technology, with a proven track record of leading both client-based and academic projects. Continuously learning and adapting to new frameworks, technologies, and best practices.

WORK EXPERIENCE

Full Stack Developer — Railwire (Client Project) Jun 2025 – Present

- Led the end-to-end development of a custom web application using Django and PostgreSQL, ensuring secure and scalable architecture.
- Reduced page load time by 40% through code optimization and CDN integration.
- Implemented mobile-responsive design and improved UX across all device types.
- Collaborated directly with the client to translate business needs into functional technical solutions.

Full Stack Developer — Udyami Bharat 4.0 (NPC) Jul 2025 – Present | Delhi, India

Developed backend modules supporting the Industry 4.0 goals under the Atma Nirbhar Bharat initiative using PHP and MySQL.

- Ensured security and scalability standards were met as per government project requirements.
- Collaborated in a structured government ecosystem with tight delivery deadlines and QA procedures.

EDUCATION

B.Tech in Computer Science Engineering

Aug 2022 - May 2026

Vindhya Institute of Technology and Science, Satna (RGPV)

2022 - 2026 (Expected)

Current CGPA: 7.0 (up to 5th Semester)

Senior Secondary (12th Grade)

jun 2020 - may 2022

Blooms Academy, Satna

· Grade: A

TECHNICAL SKILLS

Languages: Python, JavaScript, PHP, SQL

Frameworks & Libraries: Django, React.js, Node.js, Express.js

Databases: PostgreSQL, MySQL, MongoDB

Tools & Platforms: Git, GitHub, Netlify, Vercel, pgAdmin, Visual Studio Code

Core Concepts: REST APIs, MVC Architecture, JWT Authentication, CRUD Operations, Responsive

Design, Basic DSA.

CERTIFICATIONS

- Python Programming CRIPS (2023)
- PHP & MySQL CRIPS (2024)
- Web Development Specialization Coursera (July 2024)
